CAREER SUMMARY

Portfolio Link: www.aminemorabet.com

Full-Stack MERN Developer with a background in healthcare industry. Looking to join a company where I can develop my technical skills using React and JavaScript. Passionate about learning.

EXPERIENCE

PERSONAL PROJECT: MERN STACK | E-COMMERCE WEBSITE   **August 2024 - October 2024**
- **Built a commerce platform using MERN Stack as a showcase for clients.**
- **Utilized Jason Web Tokens to create a secure user authentication system.**
- **Website styling designed with React-Bootstrap to create a clear and intuitive User Experience.**
- **State Management handled with React-Redux to guarantee synced data for all users.**

PERSONAL PROJECT: REACT + TENSORFLOW.JS APP   **January 2024 - May 2024**
- **Created a React website with responsive and elegant design across all devices using Tailwind CSS.**
- **Applied fully functioning authentication system with Google Firebase.**
- **Integrated custom-made TensorFlow Image Classifier model that identifies dog species with high accuracy.**

PERSONAL PROJECT: INVOICE GENERATOR FOR HEALTH PRACTITIONERS   **November 2023**
- **Cut invoice writing time in half and allowed to allocate more time to other administrative tasks.**
- **Built with JavaScript, HTML and CSS to showcase understanding of core web technologies and fundamental principles.**

PERSONAL PROJECT: GOOGLE STORE MOBILE APP | WORD TRAINING   **September 2022 - July 2023**
- **Built a Unity mobile educational app from the ground up to help people improve their English day-to-day vocabulary skills.**
- **Designed a clear and intuitive interface for seamless user interaction, visual and audio fidelity increased with Adobe Suite.**
- **Developed thoughtful game mechanics that reward users for good execution and dynamically change difficulty depending on their performance.**

SKILLS

- **HTML CSS, JavaScript** –FreeCodeCamp Certified with 2+ years of experience.
- **React, Redux** – FreecodeCamp Certified with 2+ years of experience.
- **Firebase, MongoDB** – 1+ years of experience.
- **Client Interaction** – Effectively communicated technical concepts to clients during project meetings.
- **Quality Assurance** – Detected multiple UI bugs prior to project production, decreasing post-release issues.

- **Role Flexibility:** Increased project scope several times throughout development, learned new skills on the fly and reached chosen deadline.
